

- Vite and React
(with react-dom/client, react-router-dom and react-grid-layout)
- create-react-app in the beginning/Vite afterwards
- Netatmo API:
<https://dev.netatmo.com/apidocumentation/general>
- OAuth2 to authenticate with the Netatmo API and to get Data
- Code I created while doing the BootCamp
- Visual Studio Code
- Google Search
